10 CSR 10-6.075 Maximum Achievable Control Technology Regulations

PURPOSE: This rule establishes emission control technology, performance criteria and work practices to achieve emission standards for sources that emit or have the potential to emit hazardous air pollutants. The purpose of this rulemaking is to amend 10 CSR 10-6.075 to incorporate 40 CFR part 63 subparts promulgated or amended between January 1, 2002 and June 30, 2003. Once the regulations are incorporated by reference, the Missouri Department of Natural Resources' Air Pollution Control Program will request delegation of enforcement authority from the U.S. Environmental Protection Agency (EPA). Yearly updates to this regulation is an EPA requirement to approve the state's authority to administer its Title V permits program. The evidence supporting the need for this proposed rulemaking, per section 536.016, RSMo, are elements of the State/EPA work plan and Title V Operating Permit Program requirements.

- (1) Applicability.
 - (A) The provisions of 40 CFR part 63 as of June 30, [2002]2003, with the exception of those provisions which are not delegable by the United States Environmental Protection Agency (EPA) shall apply and are adopted by reference as part of this rule.
 - (B) In addition to complying with the provisions of this rule, affected sources may be required to obtain an operating permit pursuant to Title V of the Clean Air Act Amendments or 10 CSR 10-6.065.
 - (C) Where emission limitations, test procedure or other requirements found in both subsection (1)(A) of this rule and in another rule under Title 10 Division 10 of the *Code of State Regulations* are applicable to an emission source, the more restrictive ~~[of each emission limitation, the more accurate test procedure or the more restrictive]~~ **rule** requirement shall be applied **if that requirement is within the limitations of 643.055, RSMo.**
- (2) Definitions. Certain terms used in 40 CFR part 63 refer to federal officers, agencies and publications. The following terms applicable to Missouri shall be substituted where appropriate for the delegable federal counterparts:
 - (A) Director shall be substituted for Administrator;
 - (B) Missouri Department of Natural Resources shall be substituted for EPA, EPA Regional Office or Environmental Protection Agency; and

(C) *Missouri Register* shall be substituted for *Federal Register*.

- (3) General Provisions. The following are the Maximum Achievable Control Technology (MACT) 40 CFR part 63 subparts that are adopted by reference in this rule. Individual source operations or installations in these categories are subject to this rule based on category specific parameters, as specified in the applicable subpart:
